Appendix D: Individual Statement	44

1. Introduction

Section guidelines:

- a) List of the team members, allocation of tasks (student 1 to 4), and topic of the website.

#	Name	UOW ID	Topic
Student 1	Sellahandi Lahiru Rashmitha De Silva	w1911221	tourism
Student 2	Gorakapitiyage Induranga Kaveeshwara	w1913278	tourism
Student 3	Attapathu Mudalige Dinuga Tharinda Wijeratne	w1912929	tourism
Student 4	Harshani Pramodya Bulathsinghala	w1911220	tourism

b) Include the summary table of your contributions to the group meetings.

Group Coursework Meetings (minimum 6 meetings, e.g., one per week)	
1	Date & Time: 27 / 06 /2022
	Objective: To agree on website topic and assign student roles and discuss research on the topic
	Attended: All students attended
	Your Contribution: I suggested the topic of sports and tourism as potential options.
2	Date & Time: 04 / 07 / 2022
	Objective: Site plan and the discus
	Attended: All students attended
	Your Contribution: I suggested page to page change color in the nav bar
3	Date & Time: 11 / 07 2022
	Objective: We discuss extra pages and the js part
	Attended: All students attended
	Your Contribution: I picked up the “decide your dream tour” page
4	Date & Time: 18 / 07 / 2022
	Objective: Finalize our parts
	Attended: All students attended
	Your Contribution: -
Etc....	

2. Technical Discussion

Max 1000 words

Section guidelines:

- Discuss the development of the tasks that **you were allocated**. This technical discussion must include the approach taken and explanations of how the required functionality was implemented. Illustrate your explanation with code snippets and screenshots. Also, explain the difficulties you faced and how you solved them.
- Illustrate your technical discussion with screenshots and code samples.
- **Discuss only the following tasks that you were allocated.**
- **State if any of your allocated tasks were not completed.**

Student 1:

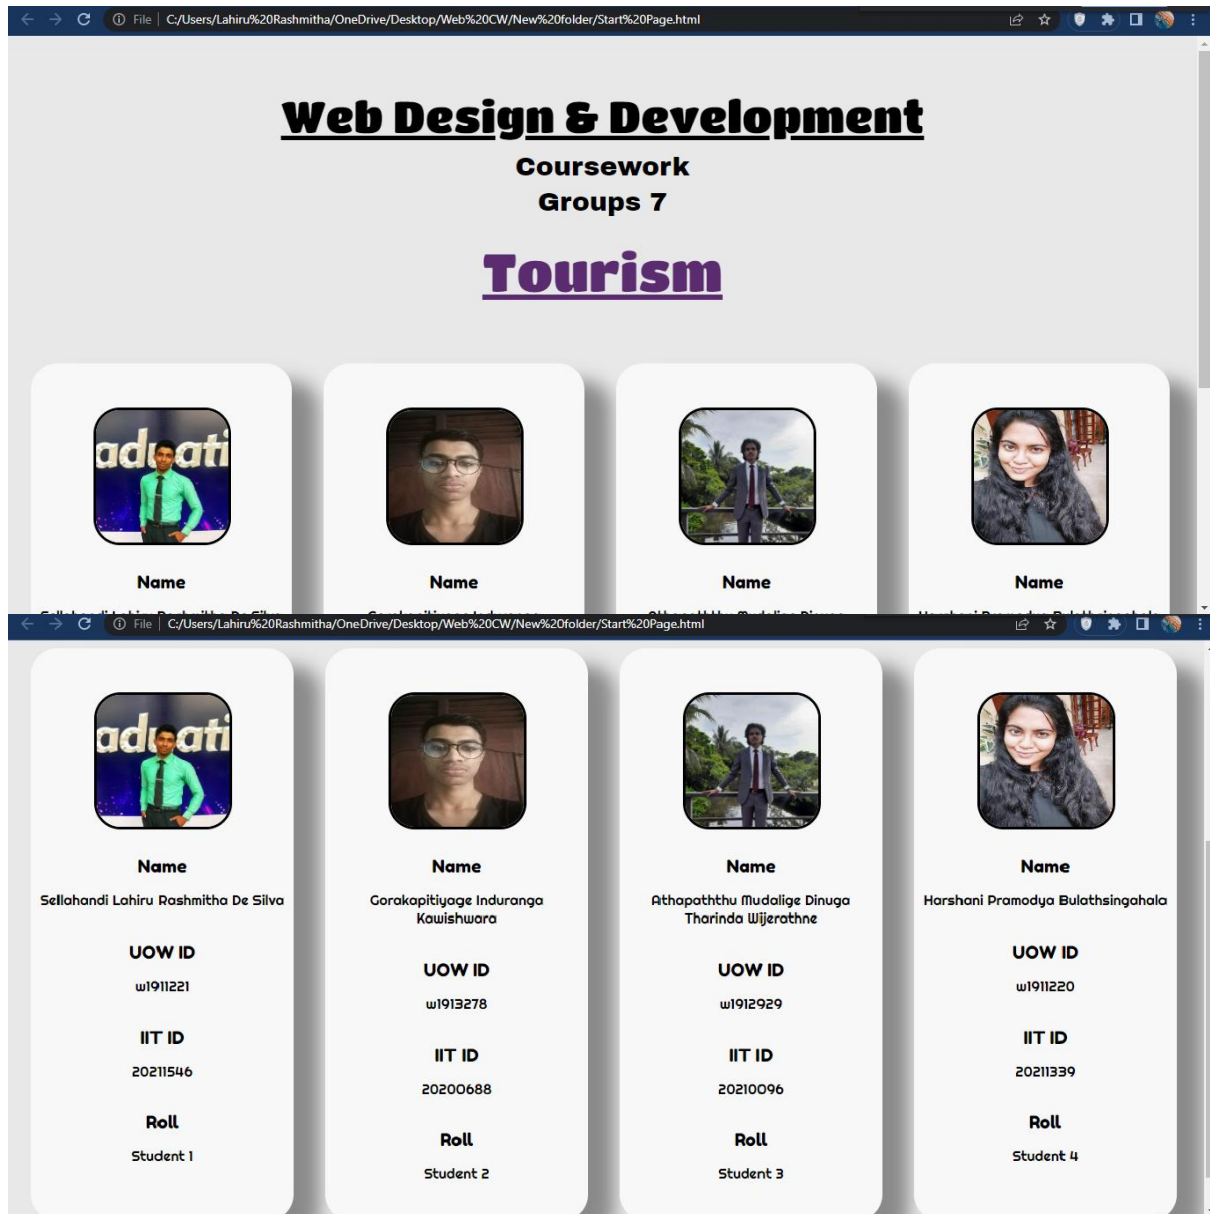

- Presentation Page
- Buy products

(All students) Page Editor Page, Main (Home) Page, Extra content page relevant to the topic

I. Presentation Page

Since my main task is the buy products page, I started making the presentation page after completing the buy products page.

The main issue I came up with when achieving that task was the design. Since half of the details that should be included in the presentation page were also included in the student details page, I had to come up with a unique design for the presentation page. At the same time, the presentation page gives the first impression of the website. In that case, at the end of the day, I implemented my presentation page as follows.

This presentation page redirects to the main home page after 4 seconds. To do that, I used the “meta HTTP-Equiv” attribute in the head section as follows.

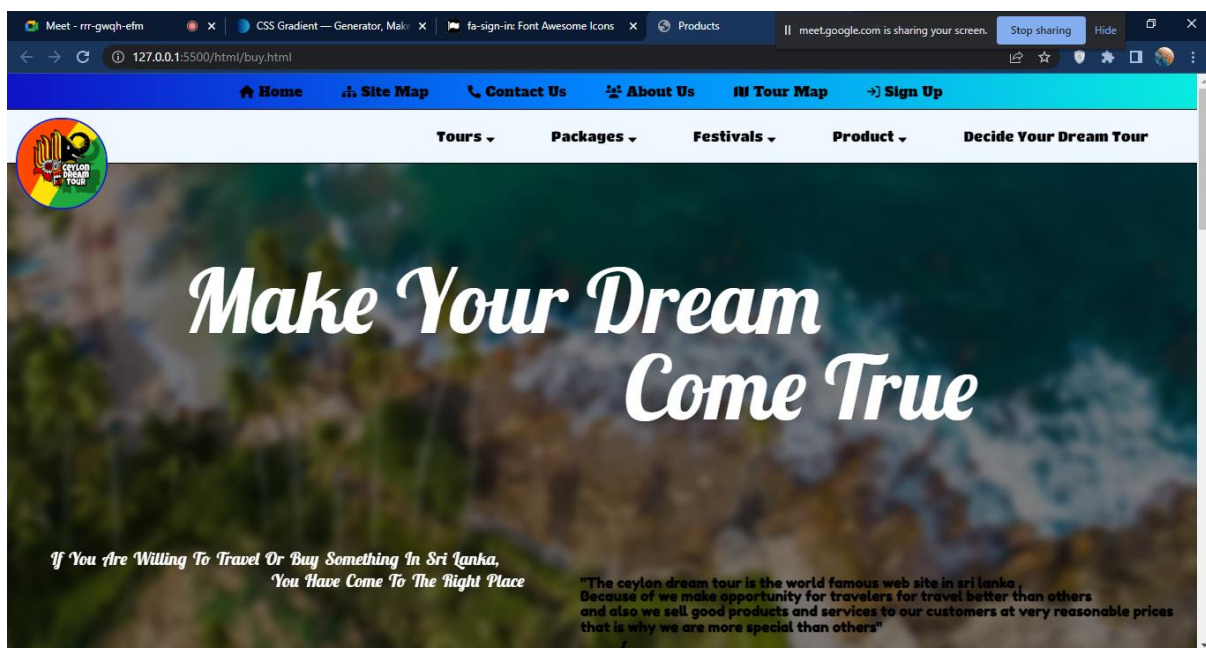

```
<meta http-equiv="refresh" content="4; html/home.html">
```

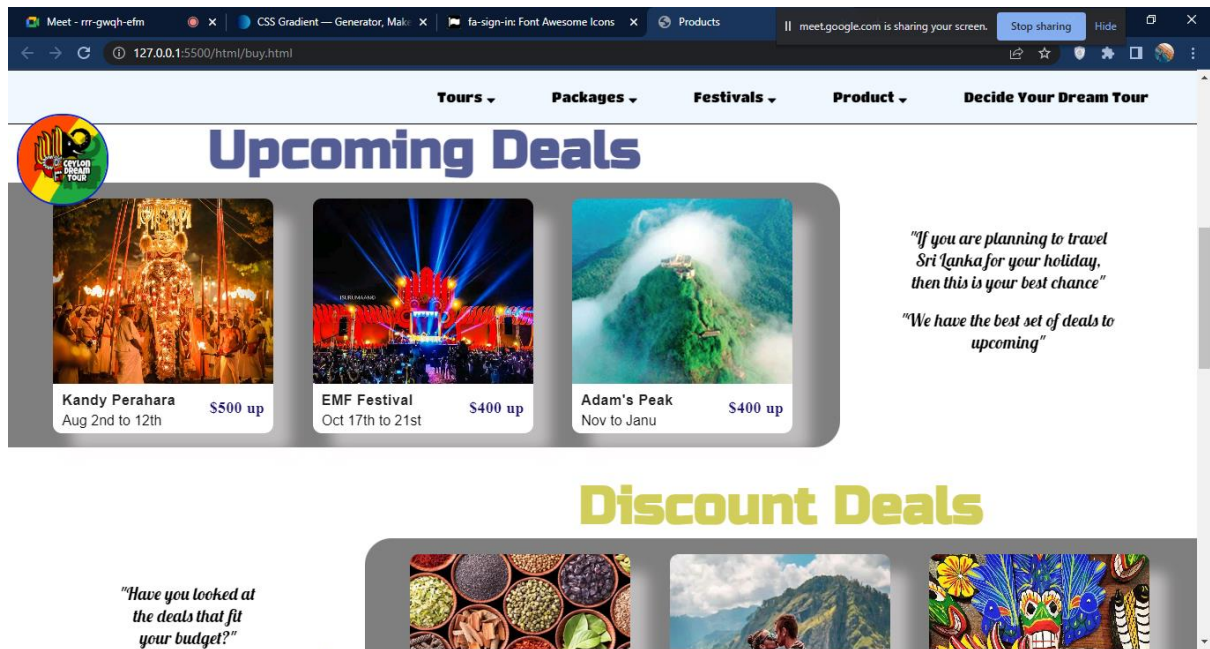

As additional interactivity, I added some hover effects using an embedded stylesheet. With that, my presentation page comes to an end by opening the doors for the home page.

II. Buy Products Page

In both the individual tasks that were allocated to me, the buy products page was the main task that I had to complete. Since our website is about tourism, I had to add the items available in the store. To achieve that task, I added 12 packages. Even though I added 12 pages, I wanted to give some descriptive information about all the packages before they appear in the store. Therefore, in the beginning, I added an introduction part to each package and then displayed the thpackageeg after that.

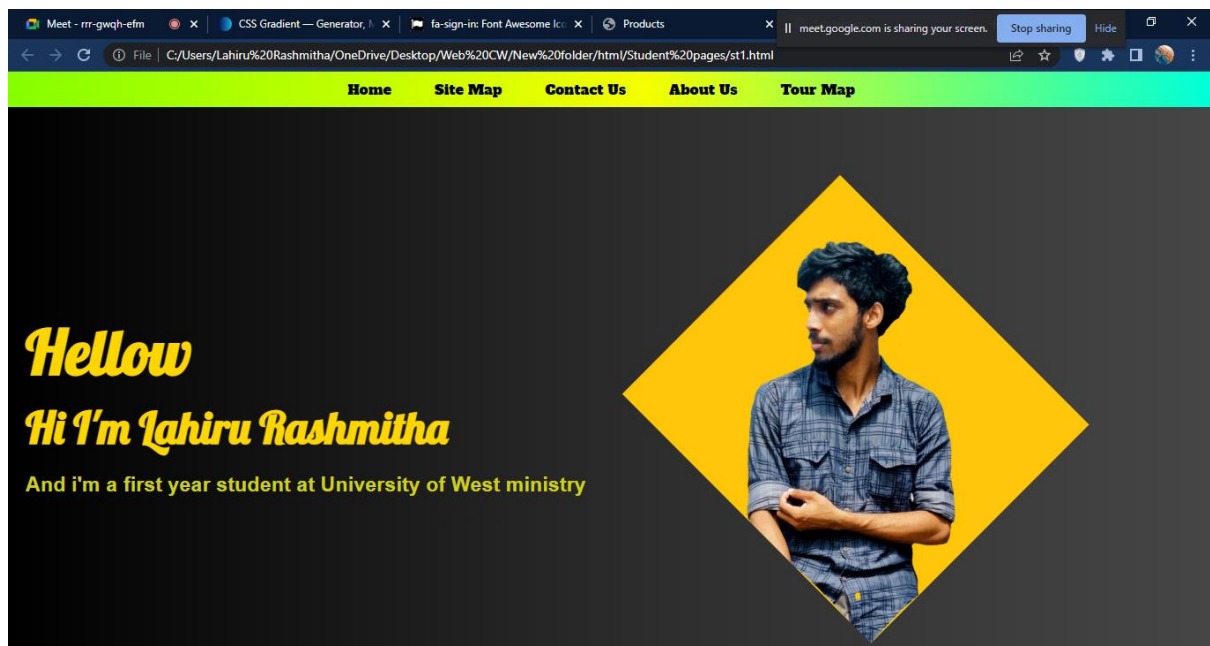

In the CW specification, it has mentioned that I have to allow users to select the quantity of the item they want. Hence, I included that specific feature in the same place where each package appears. But as always, I wanted to add an extra feature when the user is selecting drones

III. Editor's Page

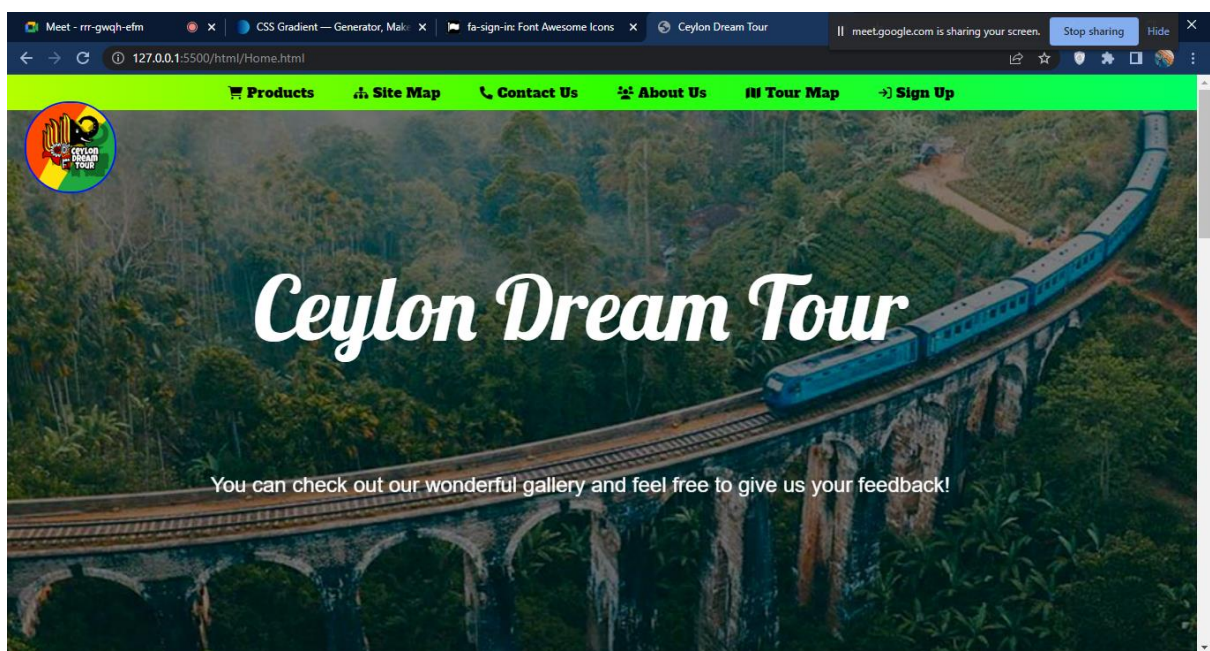

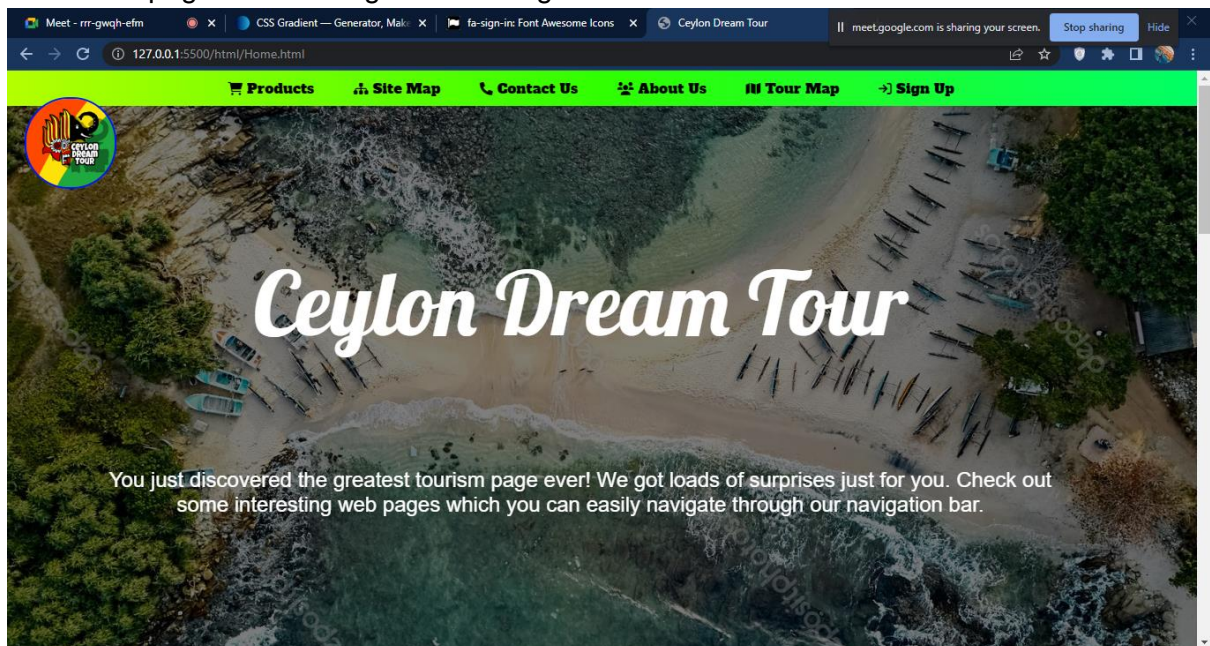

On the page editor's page, all of our team members decided to go by using one theme because this is a group CW and all the pages should be in a theme that has a flow. For that, we thought to stick with the theme of the Student Details page which was created by me. We made some changes to that page and finally all of us used it as below.

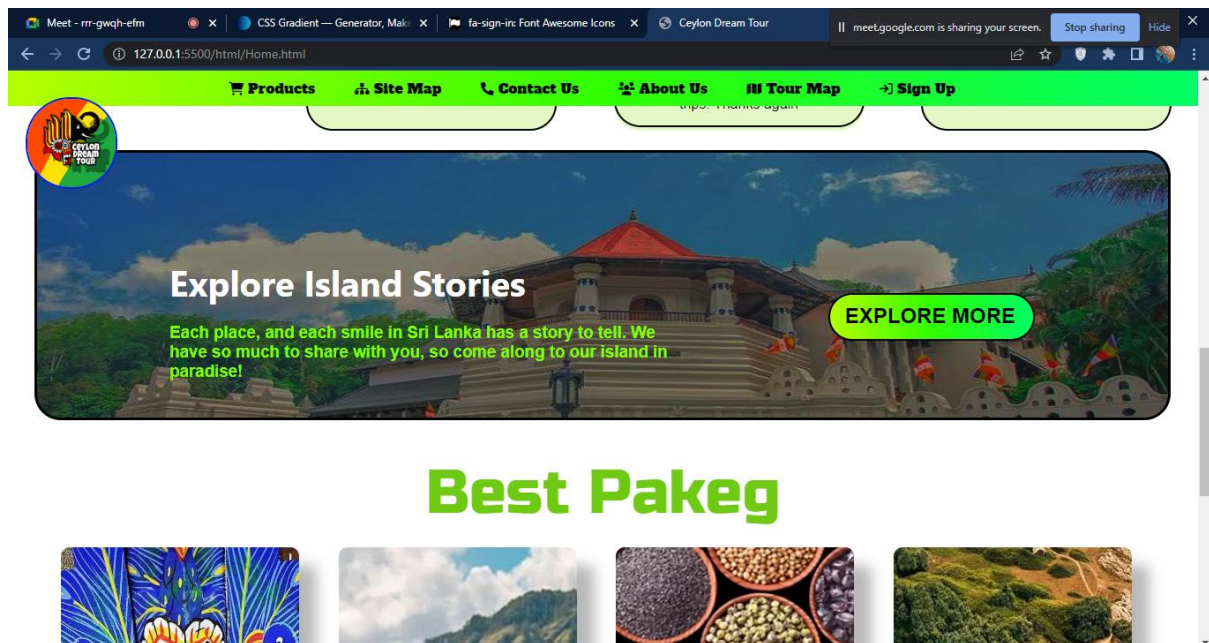

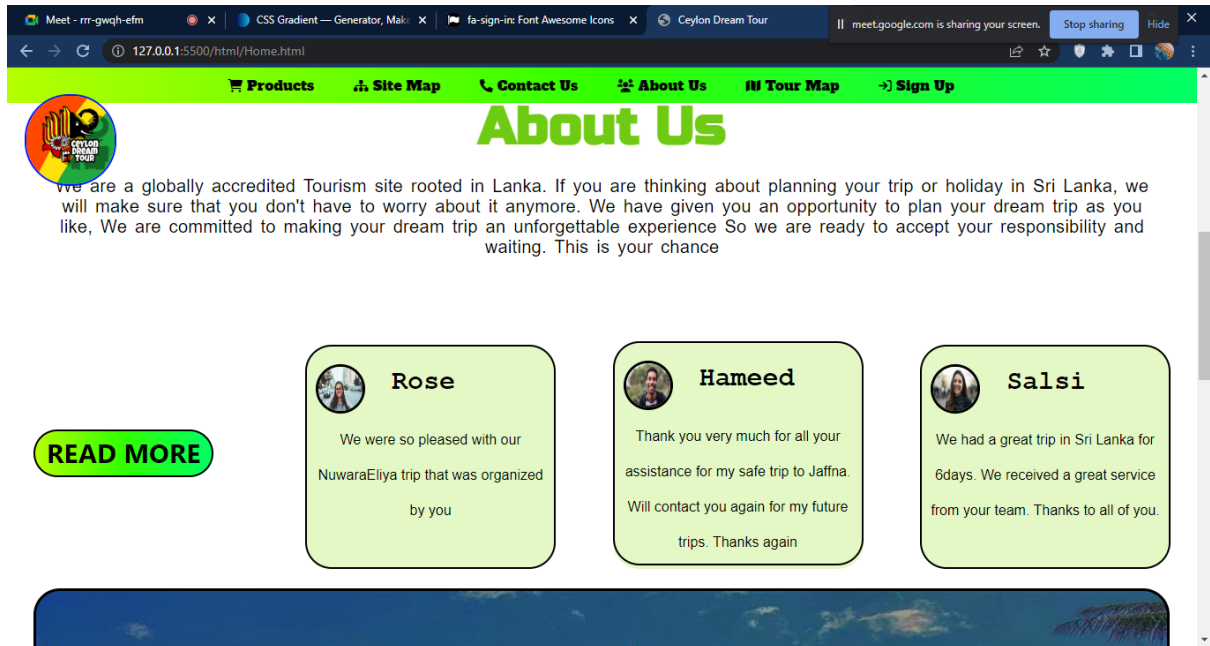

III. Home Page

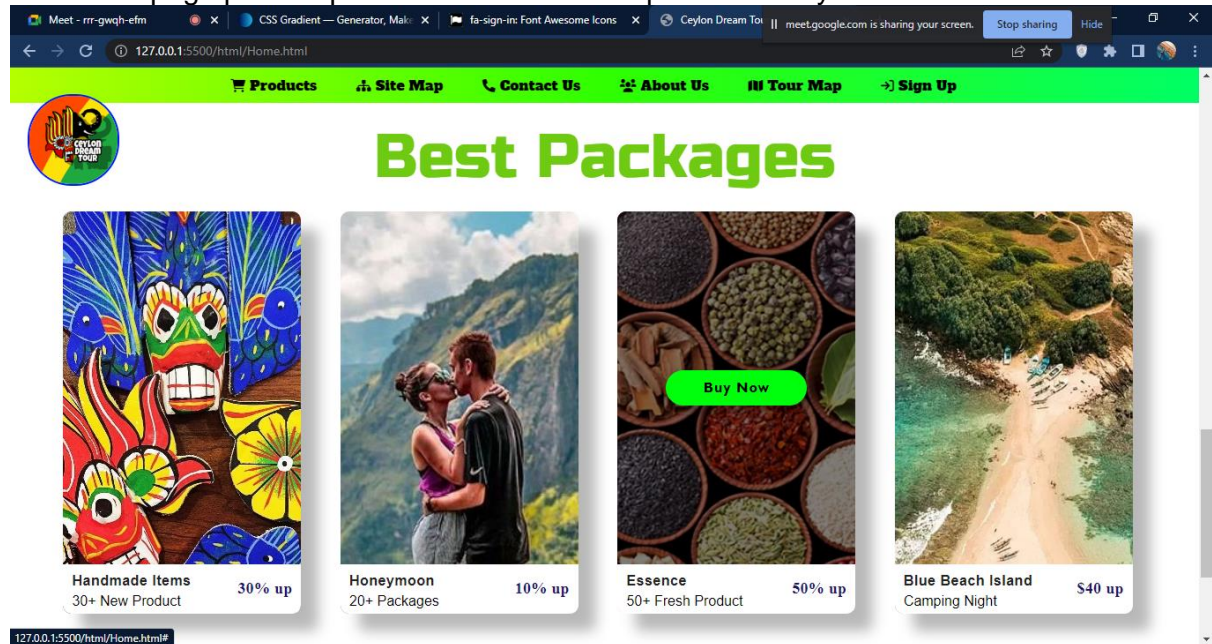

When creating the home page, we wanted to make it unique. To achieve that, we came up with an idea as follows.

The home page and its images are sliding

The home page product part and this infects this part is mad by me

Its HTML part

```
<!-- Best Pakeg ----->
----->
<div class="pakgBody1">
  <h2 id="pakgH2">Best Packages</h2>
</div>
<div class="dealsDiv1">
  <ul id="proBarUl">

IV. Extra Content Page

As the extra content page, our team decided to get collaborate and create one main extra page. For that, we created a sign-in age where the users can clarify assets to all product.

3. Webpage Validation Statement

4. • Presentation Page – 0 errors
5. • Editor's Page – 0 errors
6. • Home Page – 0 errors
7. • FAQs Page – 0 errors
